RE: Request for Incorporation of the Newly Adopted Section 12.11 of the Clark County Air Quality Regulations into the Nevada State Implementation Plan

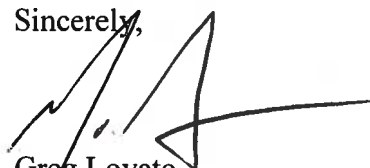

Dear Ms. Adams:

On behalf of Governor Sisolak, as his appointed designee, this letter informs you of our transmittal submitted electronically to USEPA's State Planning Electronic Collaboration System (SPeCS) of revisions to the Clark County portion of the Nevada applicable state implementation plan (SIP). The revisions regard Clark County Air Quality Regulations (AQR) and include the adoption of Section 12.11. These regulations are available on the Clark County Department of Air Quality (DAQ) web site, http://www.clarkcountynv.gov/airquality/regulations/Pages/Rules_RecentlyAdopted.aspx. The Nevada Division of Environmental Protection (NDEP) requests approval of the enclosed revisions into the Nevada applicable SIP.

Section 12.11, "General Permits for Minor Stationary Sources" was previously submitted to be added to the Nevada SIP on February 11, 2010. On October 1, 2014, Clark County submitted a request for the withdrawal of its submittal from consideration for inclusion into the SIP. Clark County has worked closely with EPA staff to address the deficiencies that resulted in its withdrawal.

The regulations were adopted by the Clark County Board of County Commissioners on December 18, 2018. Evidence of adoption, appropriate public notice and the participation process is included in this package. If you should have any questions about this submittal or require additional clarification, you may contact Richard Beckstead of the Clark County Department of Air Quality at (702) 455-1611.

Sincerely,

Greg Lovato
Administrator

Elizabeth Adams, Director, Air Division
